# Overdrive Instructions for Kindle FIRE Direct Download Method

Before checking out an e-book for the first time, you'll need to download the free Overdrive Media Console app. You'll also need to establish a free account with Adobe. **Follow the instructions below.**

## Initial Setup

1. Download the Overdrive Media Console app to your Fire tablet. Go directly to [www.overdrive.com/software/omc](http://www.overdrive.com/software/omc) and select the Android version of the Overdrive Media Console. At the current time, you will need to by-pass the Android Market to get it.  
*Note: When attempting to download or install software from any place other than the Android Market, you may get a message that says "For security, your device is set to block installation of applications not sourced in Android Market." To allow, tap on the settings icon, then tap "Device". The setting "Allow installation of applications" should be ON.*
2. Next you'll need an Adobe account in order to authorize the Overdrive Media Console prior to checking out your first e-book. Go to <https://www.adobe.com/cfusion/membership/>. Tap *Create an Adobe Account* and follow the prompts to obtain an Adobe ID and password. The first time you use the Overdrive app to download an e-book, you'll be prompted for this Adobe ID and password. Once you have done this, you won't need to do it again. It will be stored in the app.
3. Return to the Overdrive app and tap the menu icon at the bottom of the page. Tap *Get Books*.
4. Tap *Add a Library* and enter your library's zip code, or just enter 56001. Select your library and tap the star to add the Traverse des Sioux Library System's Overdrive website to the app.

## Search and download a title

1. To search for an e-book title you wish to read, tap the Overdrive app, and then tap the menu icon at the bottom of the screen.
2. Tap *Get Books*, and then tap *Traverse des Sioux Library System*. (See step 4 above if you haven't added a library.)
3. When you have found a title, select the EPUB format (NOT Kindle format), and tap the *Place in Cart* button.
4. Tap *Proceed to Checkout*. (If this is your first checkout on the FIRE, you will be prompted to use your Adobe authorization and password. You will not need to do this again.)
5. Tap *Confirm Checkout*. [You will be prompted to logon with your library barcode and password, if you have not already logged in.]
6. Tap *Download*.
7. The title is downloaded to your Overdrive app Bookshelf. Tap the title to begin reading.
